CAREERS IN BIOTECH & BIOENGINEERING

If you have ever taken cold medicine or had a measles shot, you have biotechnology to (partially) thank for your good health. This fast-growing & far-reaching industry helps open the doors to research, teaching, and even journalism! Below are some resources that can guide the way.

Career Library Resources
10.34 Plunkett's Biotech & Genetics Industry Almanac
10.18 WetFeet Guide to Careers in Pharmaceuticals
10.32 Vault Guide to the Top Pharma & Biotech Employers
Careers-internet.org guides (login: 1484w, password: future) - Biochemist, Biomedical Engineer, and Bioinformatics

Associations
Many of these associations have job boards and/or career advice in addition to salary surveys & the latest information on top employers & innovations in the field.
The Council for Biotechnology Information: http://www.whybiotech.com/
American Society for Clinical Laboratory Science (ASCLS): http://www.ascls.org/
