**Bubble Wrap Snowy Landscape Painting**

Project by: Jesse McCreery

This painting project uses the unique texture of repurposed bubble wrap to create the look of trees! Customize with colors and tree trunks to create a scenic winter landscape you can hang up on your fridge.

**Materials:**
- Bubble Wrap
- Acrylic Paints
- Brushes
- Black Cardstock
- Scissors
- Random Circle Shaped items and caps (optional)
- Sharpie (Optional)

**Directions:**

Step 1) Cut out 4-6 circles in the bubble wrap varying in size from about 1-3 inches in diameter. You can either freehand or trace flat circular items drinking cups and candle caps are perfect) with a sharpie.

Step 2) Arrange the bubble wrap circles on a sheet of black cardstock. Because they are trees, aim for keeping them around the top half of the paper, at varied heights.

Step 3) Pick up a circle and use a brush to paint colors onto the bubble wrap textured side of it. Our sample used an ombre effect on each circle. Decide on a color, then add a dark shade of that color, then a lighter shade of the same color, and then add a little bit of white, mixing each color in so it is a gradual shift.

Step 4) Stamp your painted bubble wrap circle to the area you set aside for it earlier. Make sure to rub it firmly down, from the center all the way out to the edges. Lift off the circle to reveal a treetop-like texture.

Step 5) Repeat steps 3-4 for the rest of the bubble wrap circles with different colors for each circle.

Step 6) With a brush and white paint, create the trunks of trees from drawing a line from the center of the bottom of each circle down to the bottom of the page. Draw out little branches at the base of the treetops through flicking your brush out in little lines from the top of the tree trunks.

Step 7) Using a small brush with brown paint, draw small horizontal lines across the trunks for detail.

Step 8) Using a large brush with white paint, flick the brush with your thumb to create a splattering effect across the page.
Spring Flower Painting
Project by: Mandi Gatto
This spring painting is sure to cheer up any space!

Materials:
• Canvas
• Acrylic Paints- pink, yellow, orange, light green, dark green, red, light blue, white, black
• Brushes (thin flat and thin round)
• Pallette (paper plate works great)
• Water
• Paper towels

Directions:
Step 1) Paint the background with splotches of pink, green, orange, yellow, and white. To achieve more pastel colors, mix white in with the colors. Blend colors together- be aware of which colors are next to each other and do not put complimentary colors next to each other (avoid blue against orange, no green against pink/red).

Step 2) Once you have the background and it has mostly dried, paint 5 pink circles of varying sizes and placement in the mid to upper portion of the canvas.

Step 3) Using dark green, start just below each pink circle and paint a wavy line, going towards the bottom of the canvas. These are your stems. You can also add small leaves shooting off to the sides of each stem, on either side.

Step 4) Add highlights to the flowers and stem. Mix white in with the pink and paint a few crescent shapes on top of the dark pink to simulate petals. Mix white and a dab of yellow in to the dark green. Using a small round brush to paint this highlight down the length of each stem. Also add one stroke of this highlight on each leaf.

Step 5) Paint some black outlines for definition. Add a drop of water to some black paint and mix it. This will make the lines go on smoother. Using a thin round brush, start at the sides of each stem and trace downwards. Do not worry about perfection- if the line fades slightly or is not touching the stem, this just adds to the whimsical nature of the painting!

Step 6) Optional- if you wish to go back and add some more highlights, you can still do this even after adding in the black outlines.
