### 33. Please share anything else you would like us to know about your Fraternity or Sorority experience.

I have nothing but good things to say about my chapter of XXX. I have made countless friendships with people of very different backgrounds, and I expect to carry on these relationships long after graduation. On the other hand, I think the leaders of the Greek Administration at XXX have gone behind our backs in attempt to get us in trouble with alumni and been completely unreasonable with us on multiple occasions. Preventing us from having a good time and making things all-around more difficult for us is not their job- their job is to keep people safe and HELP greek life to flourish. They make me incredibly concerned about the future of greek life at this school under their leadership and I think major changes needed to be made.
